PROFESSIONAL SUMMARY

Senior Web Developer and Technical Lead with 17+ years of experience specializing in full-stack engineering, high-performance web architecture, and developer education. Expert in the modern JavaScript ecosystem (React, Node.js, TypeScript) and Web Animation. Proven track record of architecting scalable solutions, including a high-traffic API serving ~3M monthly requests. Skilled in defining technical standards, conducting rigorous code reviews, and integrating AI-assisted workflows to accelerate development cycles.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, Python, HTML5, CSS3, SCSS, Shell Scripting

Frameworks: React, Node.js, Next.js, Express, Three.js, Tone.js, Electron, WordPress, Drupal

Tools: Git, Docker, CI/CD, Tailwind CSS, OpenAI API, Google Gemini API, RESTful APIs, Web Animation API

EXPERIENCE

Lead Educator, Team Lead

January 2020 - Present

BrainStation

- Spearheaded the technical architecture of a comprehensive 12-week full-stack MERN curriculum, designing production-grade coding projects, labs, and scalable starter repositories.
- Acted as Technical Lead for cohorts of aspiring engineers, conducting rigorous code reviews and enforcing industry best practices in Git workflow, API design, and React state management.
- Integrated AI-assisted workflows using OpenAI and Gemini APIs into the development environment to simulate modern engineering workflows and accelerate feature implementation.
- Leveraged deep technical knowledge of the JavaScript ecosystem and SCSS/CSS modules to foster rapid skill acquisition, achieving a 4.9/5 satisfaction rating.

Lead Web Development Instructor

June 2017 - January 2020

RED Academy

- Architected and delivered a full-stack curriculum, authoring complex codebases and solution sets for PHP and WordPress development modules.
- Instructed on core front-end and back-end paradigms, guiding the creation of robust, database-driven applications with a focus on modularity and security.

- Mentored students in advanced development topics, including custom plugin architecture, theme development, and database interactions.

Web Developer & Project Manager (Freelance) 2016 - 2018

Build Creative Websites

- Engineered custom WordPress applications for a diverse client portfolio, translating complex business requirements into functional digital products.
- Developed bespoke CMS solutions using custom fields, post-types, and PHP functions to deliver highly tailored content management systems.
- Managed the full software development lifecycle (SDLC) using Agile methodologies, overseeing client consultation, development, deployment, and maintenance.

Front End Web Developer January 2014 - November 2016

Advisor Websites

- Managed a high-volume production pipeline, optimizing code for load performance and maintainability to meet aggressive deadlines.
- Translated high-fidelity mockups into custom, responsive Drupal themes using HTML5, CSS3, and JavaScript, ensuring pixel-perfect implementation and strict adherence to accessibility standards.

Web Developer 2009 - 2013

Qwick Media

- Developed and maintained a diverse portfolio of company and client websites utilizing the Drupal CMS framework.
- Prototyped and built interactive touch-screen applications using Adobe Flex to create specialized user experiences for kiosk hardware.

PROJECTS

PlaceCats *[Node.js, Express.js, API Design, Sharp (Image Processing)]*

Architected a high-traffic placeholder image service handling ~3M monthly API requests. Implemented dynamic resizing, caching strategies, and performance optimization using Sharp. Adopted for use in official React documentation examples.

Advance Bass *[Next.js, TypeScript, Tailwind]*

Designed and built a production-grade Next.js application delivering interactive bass transcriptions and real-time practice tools. Engineered a browser-based video looper with tempo/pitch control and DSP-driven audio analysis using the Web Audio API. Developed a suite of musical training tools (tuner, drum machine, fretboard trainer, theory visualizers) with React 19 and Tailwind v4, focusing on performance, UX, and accessibility.

EDUCATION

McGill University - Montreal, QC

Bachelor of Music in Jazz Performance

Vancouver Island University - Nanaimo, BC

Bachelor of Music in Jazz Studies
